

KANGAROO POINT GREEN BRIDGE

Sustainability policy

Designed and constructed by

... led by ...
BESIX Watpac

An initiative of

Dedicated to a better Brisbane

We have recognised the opportunity for the Kangaroo Point Green Bridge to positively contribute to the key areas of urban design, heritage, environment, stakeholder engagement, climate resilience and energy. Our Sustainability Policy reflects the Project's commitment to positive benefits for society and the environment.

In this policy we promise to:

- Contribute green and active transport solutions that enhance connectivity, celebrate the Brisbane River and support community liveability and wellbeing outcomes.
- Manage, preserve, and enhance areas of cultural, historic, and Indigenous heritage significance.
- Minimise impacts to environmental values and areas of ecological sensitivity and significance.
- Conserve natural resources through the efficient management of relevant impact areas associated with waste, water, energy, and materials.
- Respect and reflect community input and stakeholder feedback to support community acceptance and support for the program.
- Deliver adaptive and resilient infrastructure that assesses and addresses the impacts of a changing climate and supports the transition to a low carbon economy.
- Contribute to the local economy through the provision of jobs, skills training, apprenticeships, and development opportunities.
- Commit to sustainable Indigenous employment and participation.
- Support principles and practices aligned to the delivery of best sustainable outcomes.
- Commit to restorative urban enhancement of Kangaroo Point Green Bridge area, promotion of social values, landscape resilience and the reinstatement of existing facilities.
- Commit to promoting and generating positive impacts on the local Indigenous heritage, urban development, local community, and surrounding environment.
- Commit to achieving Infrastructure Sustainability Design and As-Built Ratings of Excellent under Infrastructure Sustainability Council (ISC), which promotes the UN Sustainable Development Goals SDGs.
